

## **Radiation Oncologist**

BC Cancer – Abbotsford

Regular, Full-Time (1.0 FTE)

Abbotsford, BC, Canada

BC Cancer-Abbotsford seeks a **Radiation Oncologist** to join our team.

The successful applicant will be joining 11 full time radiation oncologists at the BC Cancer-Abbotsford, a full service cancer centre that provides service to approximately 2200 new patients per year. On site assets include CT simulation, four linear accelerators; with cone beam CT, Intensity Modulation, VMAT, SABR, SRS, as well as a comprehensive brachytherapy program. The centre has collaborative and innovative nursing, medical physics, dosimetry and therapy staff. The BC Cancer-Abbotsford has a full range of medical oncology, diagnostic and support services.

The BC Cancer-Abbotsford Radiation Oncology is committed to excellence in clinical care and focused on developing academic excellence in a provincial cancer care environment. The BC Cancer's population-based model and resultant databases provide outstanding opportunities for outcome-based research. The Abbotsford Centre participates actively in several clinical trials groups. The successful candidate will be part of a collaborative care team committed to excellence, to participate in clinical, research, administrative and educational activities.

Abbotsford, the "City in the Country", is nestled in the shadow of majestic Mt. Baker, in the eastern Fraser Valley, and has a blend of modern urban living and a friendly country atmosphere. Thanks to the comfortable west coast climate and surrounding geography, a variety of recreational opportunities are nearby. Abbotsford is at a short drive to Vancouver, BC and Seattle, WA.

Applicants must be eligible for licensure in BC as a Radiation Oncologist and have Canadian certification in Radiation Oncology (FRCPC), or an equivalent qualification. Experience in GYN and/or GU Brachytherapy will be an asset.

Successful candidates will have:

- Commitment to upholding the shared responsibility of creating lasting and meaningful reconciliation in Canada as per TRC (2015) and BC's Declaration on the Rights of Indigenous Peoples Act (2019).
- Knowledge of social, economic, political and historical realities impacting indigenous communities and familiarity with Indigenous Cultural Safety and anti-racism and accompanying reports (BC DRIPA, TRC, etc.).

**As per the current Public Health Order, full vaccination against COVID-19 is a condition of employment with PHSA as of October 26, 2021.**

### **What we bring**

Every PHSA employee enables the best possible patient care for our patients and their families. Whether you are providing direct care, conducting research, or making it possible for others to do their work, you impact the lives of British Columbians today and in the future. That's why we're focused on your care too – offering health, wellness, development programs to support you – at work and at home.

- Join one of BC's largest employers with province-wide programs, services and operations – offering vast opportunities for growth, development, and recognition programs that honour the commitment and contribution of all employees.
- Access to professional development opportunities through our in-house training programs, including +2,000 courses, such as our San'yas Indigenous Cultural Safety Training course, or Core Linx for Leadership roles.

- Salaried Physicians enjoy a comprehensive benefits package, including municipal pension plan, and psychological health & safety programs and holistic wellness resources.
- Salaried Physicians receive annual statutory holidays (13) with generous vacation entitlement and accrual.
- Access to WorkPerks, a premium discount program offering a wide range of local and national discounts on electronics, entertainment, dining, travel, wellness, apparel, and more.

## What we do

[BC Cancer](#) provides comprehensive cancer control for the people of British Columbia.

BC Cancer is part of the Provincial Health Services Authority (PHSA).

([PHSA](#)) plans, manages and evaluates specialized health services with the BC health authorities to provide equitable and cost-effective health care for people throughout the province. Our values reflect our commitment to excellence and include: Respect people – Be compassionate – Dare to innovate – Cultivate partnerships – Serve with purpose.

**BC Cancer** ([www.bccancer.bc.ca](http://www.bccancer.bc.ca)) is committed to reducing the incidence of cancer, reducing the mortality from cancer, and improving the quality of life of those living with cancer. BC Cancer provides a comprehensive cancer control program for the people of British Columbia in partnership with regional health authorities to deliver a range of cancer services, which include prevention, screening and early detection, diagnosis and treatment, research, education, supportive care, rehabilitation and palliative care. It operates six regional cancer centres in Surrey, Kelowna, Vancouver, Victoria, Abbotsford and Prince George, along with two research centres that conduct research into the causes and cures for cancer.

BC Cancer is part of the **Provincial Health Services Authority (PHSA)** which plans, manages and evaluates specialty and province-wide health care services across BC. ***PHSA embodies values that reflect a commitment to excellence. These include: Respect people • Be compassionate • Dare to innovate • Cultivate partnerships • Serve with purpose.***

PHSA and BC Cancer are committed to employment equity and diversity and hires *on the basis of merit*. We welcome applications from all qualified individuals, *including visible minority group members, women, Aboriginal persons, persons with disabilities, persons of any sexual orientation or gender identity. Citizens and permanent residents of Canada will be given priority.* We recognize that our ability to provide the best care for our diverse patient populations relies on a rich diversity of skills, knowledge, background and experience, and value a safe, inclusive and welcoming environment.

Reconciliation is an ongoing process and a shared responsibility for all of us. The BC Governments' unanimous passage of the Declaration on the Rights of Indigenous Peoples Act was a significant step forward in this journey—one that all health authorities are expected to support as we work in cooperation with Indigenous Peoples to establish a clear and sustainable path to lasting reconciliation. True reconciliation will take time and ongoing commitment to work with Indigenous Peoples as they move toward self-determination. Guiding these efforts Crown agencies must remain focused on creating opportunities that implement the Truth and Reconciliation Commission Mandate.
